Work Style	Since joining the workforce, I have followed the company's arrangements, strengthened my learning, and conscientiously examined my own shortcomings. While persisting in study, I have identified problems and deficiencies in my practical work and personal thinking and worked hard to correct them. Starting with myself and with small things, I have strengthened my study of political theory and continuously improved my political competence.
Integrity in	I strictly abide by the regulations on integrity and self-discipline, exercise authority impartially,

Professional Conduct	remain honest and upright, and seek no personal gain. I strictly comply with the spirit of the Central Eight-Point Regulation, firmly oppose the "Four Forms of Decadence," have never accepted banquets or gifts or cash from business partners, and have never violated the spirit of the Central Eight-Point Regulation.
